

25X1A

Image Enhancer

USAF Declass/Release Instructions On File

7 November 1961

mwk

MEMORANDUM FOR: Chief, Technical Plans and Development Staff

SUBJECT: Air Force (Systems Command) Request for Bidders, Dated
3 October 1961, REF Nr. 33(657) 62-5065-Q

1. The Air Force are requesting bids for the study, design and manufacture of a contrast modulating device.

2. The parameters are similar to those which we evolved a year ago and which have resulted in the study, design and manufacture of an Image Enhancer by [REDACTED]

25X1A

3. The [REDACTED] will be ready for delivery check very shortly and it would seem most advisable for Air Force to see our machine before going ahead with their own development. I can see nothing in the Air Force specs which varies radically from our specs and we already have a large design investment. This would seem to be an area in which US Government could save financially and it is recommended that US Air Force see our device before proceeding further [REDACTED]
